REPUTATION MANAGEMENT

Aggregate reviews from all of the top sites so you can easily monitor what customers are saying about your clients –in real-time!

CUSTOMER / CLIENT SURVEYS

Create engaging surveys that are sent through phone text messaging and email to your customers.

REVIEW SITE

We create a microsite that also serves as a good SEO tool for quality backlinks to your main website.

REVIEW NOTIFICATIONS

Never miss a word with real-time notifications of new customer feedback to your phone and/or email

REVIEW MONITORING

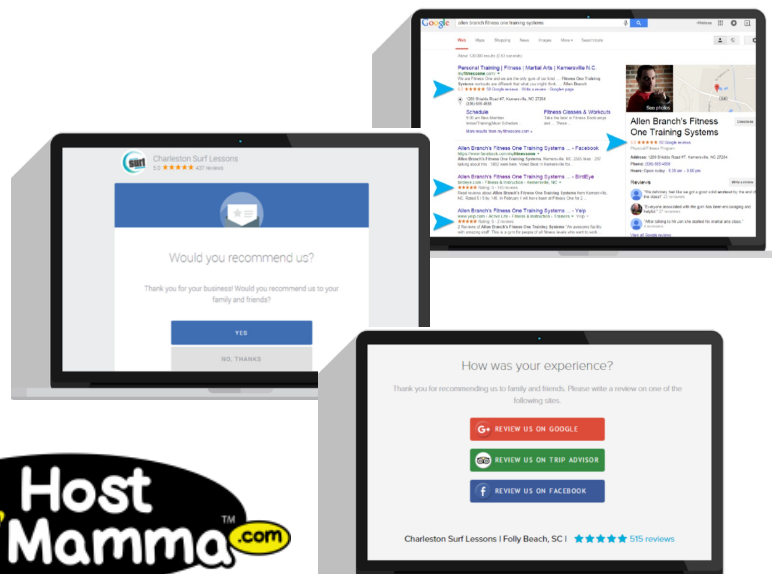

Monitor & respond all your reviews from all your social sites

REVIEW MARKETING

Amplify customer voices and let your online reputation promote itself. Push your best reviews out to your social platforms and integrate your reviews onto your website through an API and a review widget.

HostMamma's Reputation Management platform allows your business to:

- ⇒ Check in customers to enable in-the-moment feedback requests and build customer database
- ⇒ Automatically send review requests via txt message or email to your customer, clients or patients
- ⇒ Monitor new reviews from 60+ sites instantly–text, video, photo–on business phones or tablets
- ⇒ Monitor social media activity for real-time sentiment. Know what your customers are saying about you, all the time.
- ⇒ Instantly reply to all customer feedback from one easy-to-use dashboard
- ⇒ Assess real-time reports of review, ratings, NPS scores, and consumer sentiment levels
- ⇒ Auto-promote best reviews to your website, search engines, social channels, and 50+ consumer sites
- ⇒ Manage all locations from any device, including mobile
